ONCE YOUR CHILD CAN SAY "HELP," TEACH HIM HOW TO GET IT.

Dialing "O" for the operator in an emergency is so simple even a child can do it.

But you'd be surprised how many children don't know how—only because they haven't been taught.

That's why it's important to teach your children this emergency procedure as soon as they can understand it.

Dialing "O" is fast because there's only one digit to dial.

Dialing "O" is easy because it can be used for any emergency situation.

And dialing "O" alerts an operator who's specially trained to handle an emergency. That's particularly important if a younger child becomes confused or panics.

Older children can be taught to find the emergency service number in the telephone directory. And, of course, make sure all your children know that phones aren't toys and shouldn't be played with.

Any child can get involved in an emergency.

What's important is that they know how to get out of it.

Post 'Fun Fitness' at ACES

Appomattox Elementary kicked off a collection drive today aimed at acquiring a new and much-needed physical education equipment.

The physical education equipment will be provided through the national Post "Fun and Fitness" program. This program offers schools free athletic equipment in exchange for proof-of-purchase seals from Post Cereals, Wonder Bread, Log Cabin Syrup, Log Cabin Pancake and Waffle Mix and tear strips from Birds Eye Awake and Orange Plus Breakfast beverages.

Bob Griese, all-pro quarterback of the Miami Dolphins and a strong supporter of good athletic programs is the National Program Director. He believes it is vital "to develop a love of exercise and physical fitness among young people."

"We're delighted to be able to get equipment free," said AES PTA president Robert Carter. We hope all of our friends in the community will help us reach our goal by saving and turning in the special proof-of-purchase seals from Fun 'n Fitness brands. They may be turned over to AES students or delivered to the school any time before April 31, 1981.

The collection program will be under the auspices of Appomattox Elementary PTA.

Program for gifted at ACES

A program for gifted and talented students has been initiated at Appomattox Elementary School.

Under the standards of quality each school division is required to identify its gifted and talented population. Guidelines from the State Department of Education and Appomattox County School Board were incorporated to identify students. Students at A.E.S. have been identified with the aide of cumulative records, the classroom teacher, the principal, and parents.

Gifted students, generally, are among those who meet or exceed a score on standardized tests of ability that falls at least above the 95th percentile and a group intelligence quotient of 120 or higher. These children require services beyond those normally provided by the regular school program in order to realize their contributions to self and society.

Students at A.E. S. are bing identified in three areas: academically gifted, musically talented and artistically talented. A handbook detailing the gifted/talented program at A. E.S. is available upon requests from the school.

Recently students were involved in newspaper study lessons as they read and wrote classified ads, studied the difference betwen editorials and articles and created their own imaginary obituaries. Students are busy planning for a mock presidential election as they campaign, debate and study the candidates.

LOCAL FFA CHAPTER members who attended the leadership conference are (from left) Lee Moore, Lynn Padgett, Randy Phelps, Cat Ballowe, and Richard Steadman.

Officers of Jr. FFA attend conference
